PROFESSIONAL SUMMARY

Entry-level Full Stack Developer with certified training in Full Stack Python Development from Appin Technology Lab and hands-on internship experience at Ether Services. Proficient in HTML5, CSS3, JavaScript, Python, Django, and React.js. Experienced in building and deploying end-to-end responsive web applications with both frontend and backend functionality. Adept at REST API development, database management, and version control using Git and GitHub. A quick learner who enjoys solving real-world problems through clean, efficient code and is eager to contribute to a collaborative development team.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Bootstrap, React.js, Responsive Web Design

Backend: Python, Django

Database: SQL, PostgreSQL (Basics)

Deployment: Render, Vercel, GitHub Page

Tools & Others: Git, GitHub, VS Code

PROJECTS

UD-Traveler - Travel Booking Web Application

Tech: Django, HTML5, CSS3, JavaScript, SQLite | *Live:* <https://ud-travels.onrender.com>

- Designed and developed a full-stack travel booking platform supporting user registration, login, and session-based authentication.
- Implemented destination search and filtering with real-time vehicle selection and dynamic fare calculation based on distance and type.
- Integrated a UPI QR-based payment flow with automated booking confirmation emails and end-to-end transaction records stored in SQLite.
- Built a fully responsive UI using HTML5, CSS3, and JavaScript ensuring seamless experience across mobile, tablet, and desktop devices.
- Deployed the application on Render with environment-based configuration for production readiness.

MYBRAND - Online Shopping Website

Tech: HTML5, CSS3, JavaScript, Bootstrap 5 | *Live:* <https://logubalaji0405.github.io/mini-project>

- Developed a fully responsive e-commerce frontend featuring product listing pages, category navigation, and a dynamic cart interface.
- Implemented a JavaScript-powered live search feature that filters products in real time without page reload.
- Structured reusable UI components including product cards, headers, and footers ensuring design consistency across all screen sizes.
- Optimised page load performance and deployed on Vercel with clean URL routing and fast content delivery.

Portfolio - Single Page Application (SPA)

Tech: React.js, React Router, Bootstrap 5 | *Live:* <https://portfolio1-roan-iota-58.vercel.app>

- Built a personal SPA portfolio using React.js and React Router with smooth client-side navigation and zero page reloads.
- Developed separate sections for About, Skills, Projects, and Contact with a clean, modern UI layout.
- Implemented responsive design patterns using Bootstrap 5 ensuring compatibility across all screen sizes and devices.
- Deployed on Vercel and used as a live demonstration of frontend development skills during job applications.

Hospital Management System

Tech: HTML, CSS, JavaScript, Bootstrap, Python, Django | Live: <https://hospital-project-etq9.onrender.com>

- Developed a full-stack hospital management system handling patients, doctors, appointments, billing, and hospital records.
- Implemented role-based access control to separate admin, doctor, and patient-level permissions within the system.
- Built all frontend pages using HTML, CSS, Bootstrap, and JavaScript with responsive layouts for clinical staff usage.
- Handled backend development using Python and Django including form validation, model design, and database management with SQLite.
- Served as the sole developer managing both frontend and backend development, testing, and deployment on Render.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern

Ether Services, Coimbatore

- Contributed to the development of frontend and backend features for live client-facing web applications using Python, Django, HTML, CSS, JavaScript, and Bootstrap.
- Worked closely with the development team on real-time project tasks including feature implementation, bug fixing, and code review.
- Integrated database models and wrote Django views and URL configurations for dynamic page rendering.
- Gained practical experience in version control using Git and GitHub, following branching and commit conventions used in production teams.
- Participated in daily team stand-ups and sprint planning, building familiarity with Agile development practices.

EDUCATION

Bachelor of Computer Applications (B.C.A) <i>M.G.R College, Hosur</i>	2022 - 2025
---	-------------

Higher Secondary Certificate (HSC) <i>Government Higher Secondary School</i>	2021 - 2022
--	-------------

Secondary School Leaving Certificate (SSLC) <i>Government Higher Secondary School</i>	2019 - 2020
---	-------------

CERTIFICATION

Full Stack Python Developer Certification

Appin Technology Lab, Coimbatore

- Completed an industry-oriented certification course covering Python, Django, React.js, HTML5, CSS3, JavaScript, Bootstrap, REST API, SQL, and GitHub.
- Built and deployed multiple web applications with backend REST APIs, user authentication, form handling, and SQLite database integration.
- Gained hands-on experience through guided projects simulating real-world development workflows and best practices.
